Golfsoft™ GS Software

1. GETTING STARTED

This *User Manual* will help you to familiarize yourself with the **18-Hole Stroke Play** application. The dialog boxes and controls in this *User Manual* may appear different from the dialog boxes and controls that appear on your computer screen.

Stroke play, also known as medal play, is a form of competition based on the cumulative number of strokes taken, either over one round or several. This application is for 18-hole rounds.

The **18-Hole Stroke Play** application is used to set up and run 18-hole stroke play events, including and not limited to:

- Individual (up to 15 flights) low gross and low net.
- Callaway handicapping.
- Individual Stableford (up to 15 flights) (gross, net and quota).
- Team Stableford (up to 15 flights) (gross, net and quota).
- Select players qualifying.
- Export player scores into Handicap Creator 2011.
- Inter-Club events.
- Select skins game for all of above.
- Select players playing skins.

This *User Manual* describes all the steps necessary to complete a 18-hole stroke play event.

Please take a moment to familiarize yourself with the text conventions, terms, and controls used in this *User Manual*.

1.1 Text Conventions

The examples below explain the specially formatted text used in this *User Manual*.

- Dialog boxes and control names appear in bold type: **Select Member** dialog
- Keyboard key names appear in bold type: **Home**, **End**, **Backspace**, **Tab**
- Keyboard keys that must be pressed at the same time to perform a task appear in bold type with a plus (**+**) between the key names: **Alt+H**
- Drives appear as capital letters: drive C
- File names appear in italics with an initial capital letter: *Setup.exe*
- Command line statements appear in lower case bold type: **a:\install**
- Names of icons appear in bold type: **My Computer** icon
- Menu items, option buttons, and check boxes appear in bold type: **Programs**, **Accessories**, **Tournament** option, **Use 18-Hole Factor** check box

1.2 Terms

You can use either a single-button mouse or a multiple-button mouse with this application.

If you have a multiple-button mouse, the left mouse button is the primary mouse button, unless you have configured it differently. Any procedure that requires you to click the secondary button will refer to it as "the right mouse button."

If you have a single-button mouse, pressing the **Ctrl** key while clicking the mouse button is the same as clicking the right mouse button.

This *User Manual* uses the following terms.

Term	Meaning
18-Hole Stroke Play	Name of application.
Press	Strike a key from the keyboard.
Type	Strike a key from the keyboard to display text

Golfsoft ™
GS Software

	on the screen. Do not press the **Enter** key after entry is complete, unless instructed to do so.
Enter	Type the entry, then press the **Enter** key.
Point	Position the mouse pointer until the tip of the pointer rest on whatever you want to point to on the screen.
Click	Point, press and immediately release the left mouse button without moving the mouse.
Double-click	Point, press and immediately release the mouse button twice without moving the mouse.
Drag	Point and then hold down the mouse button as you move the mouse.
Choose	Click a command button. Click an item from a menu bar or dropdown menu.
Select	Click a command button. Click an item from a menu bar or dropdown menu. Click an option button to make a black dot appear. Click a check box to make an **X** appear. Click and item in a list box, then click **OK**, or double click and item in a list.
Clear	Click an option button to make the black dot disappear. Click a check box to make the **X** disappear.

In Windows, the terms *choose* and *select* have different and specific meanings. Selecting an item usually means mark it with the selection cursor, which can appear as a highlight, a dotted rectangle, or both. You also select *check boxes* and *option buttons* in dialogs. Selecting alone does not initiate an action.

You choose an item to carry out an action. For example, choosing a command button or menu item might open a dialog or carry out a command. You often need to select an item before you can choose it.

1.3   Controls

You can use a combination of mouse and keyboard techniques. For example, you could click an item to select it, and then press **Enter** from the keyboard to choose it. When a procedure in this *User Manual* says to choose an item, generally you can use whichever method you prefer.

This section gives basic information about controls and their functions. Throughout this *Guide*, the control name will be in bold type. For example, select **OK** or select **Courses Table** check box. The controls found in the **9-Hole Stroke Play** application are similar as shown below.

Golfsoft™
GS Software

Button	**OK**	Menu Bar	E<u>x</u>it <u>A</u>dd <u>E</u>dit <u>D</u>elete <u>S</u>etup	
Text Box		Frame	Long date	
Combo Box	**Hole-By-Hole** ▼			
Option Button	● <u>F</u>irst Name (John Smith)	Icon		
Check Box	☒ Courses Table	List Box	Apples / Oranges / Bananas / Pears	
Spin Control	155 ▲▼			
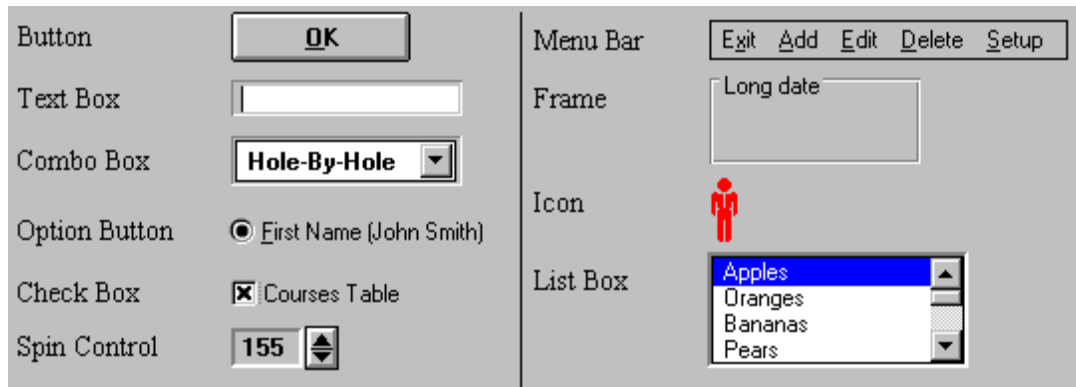

1.3.1   Button or Command Button

You choose a *command button* to initiate an action, such as carrying out or cancelling a command. Common command buttons are **OK** and **Cancel**. They are often located along the bottom or on the right side of the dialog.

A command button, followed by an ellipsis (…) or a double greater-than sign (>>) opens another dialog box.

Unavailable command buttons are dimmed. The currently selected button has a darker border than other buttons. You can choose the currently selected button, simply by pressing the **Enter** key.

To choose a command button, click the command button. Or press the **Tab** key until the button you want is selected, and then press the **Enter** key.

1.3.2   Text Box

You type information into a *text box*. When you move to an empty text box, an *insertion point* (a flashing vertical bar) appears. The text you type starts at the insertion point.

If the box you move to already contains text, and the text is highlighted, any text you type replaces it. You can also delete the existing text by pressing the **Delete** key or **Backspace** key.

To select text in a text box, drag the pointer across the text, or double-click a word to select one word at a time. Or press and hold down the **Shift** key while pressing an **Arrow** key.

1.3.3   Combo Box

A *combo box* appears initially as a rectangular box containing the current selection. When you select the down arrow in the square box at the right, a list of available choices appears. If there are more items than can fit in the box, scroll bars are provided.

To open a combo box and select an item:
1. Click the arrow at the right to see a list of available choices.
2. Click the up or down scroll arrow, if visible or drag the scroll box to move to the item you want to select.
3. Click the item.

1.3.4   Option Button

Option buttons represent a group of mutually exclusive options. You can select only one option at a time. If you already have one option selected, your current selection replaces it. The option buttons are, generally enclosed in a frame. The selected option button contains a black dot. Names of unavailable options are dimmed.

To select an option button, click the option button.

1.3.5 Check Box

A *check box* means you can select or clear an option. You can select as many check-box options as needed. When a check box is selected, it contains an **X**. Names of unavailable options are dimmed.

To select or clear check boxes, click the check box.

1.3.6 Spin Control

The *spin control* is a control that works with another control, such as a text box to increment and decrement values. It can also, scroll back and forth through a range of values or a list of items.

To continue to increment the value, click the up (or right) arrow of the spin control and hold down the mouse button, then release the mouse button when the desired value is displayed. Likewise, repeat the latter by clicking the down (or left) arrow to decrement the value. If a flashing vertical bar appears when you drag the mouse cursor over the area left of the up (or right) and down (or left) arrows, the control contains a text box. If the area is highlighted or selected you can change the value or list with the up and down (or left and right) arrow keys from the keyboard.

1.3.7 Menu Bar

The *menu bar* contains a list of menu items. Some commands carry out an action immediately; others display a dialog so that you can select options, or a dropdown menu. Dimmed menu items are unavailable.

A menu item followed by an ellipsis (…) opens another dialog.

1.3.8 Frame

A *frame* groups the controls together. The name of the frame usually describes the group of controls.

1.3.9 Icon

Icons are small pictures that represent something. For example, the icon in the previous illustration represents a male. Some icons act as a command button.

1.3.10 List Box

A *list box* displays a list of choices. If there are more choices than can fit in the box, scroll bars are provided so you can move quickly through the list. Some list boxes are accompanied with a text box. If you type a letter in the text box the list box scrolls to match the letter you type.

Usually, you can select only one item in a list box. There are some cases when you can select more than one item.

To select a single item from a list box:

- Use the method as described above or
- Click the scroll arrows until the item you want to select appears in the list
- Click the item, and then choose the appropriate command button or double-click the item to select it and complete the command all in one step.

To select multiple sequential items in a list, click the first item you want to select, and then drag the cursor to the last item you want to select.

To cancel the selection, click any item in the list or click the first item you want to select, press and hold down the **Shift** key, and click the last item you want to select. Both items, and all items in between, are selected.

To select multiple non-sequential items in a list, press and hold down the **Ctrl** key, and click each item you want to select.

To cancel a selection, press and hold down the **Ctrl** key, and click the item again.

1.4 System Requirements

The application will operate on the following operating systems and configurations:

- PC with a 266 MHz or greater Pentium-class processor
- Microsoft Windows 95/98/2000/ME/XP/Vista
- 256 MB of RAM or greater
- 15 MB available hard drive space
- CD drive
- Monitor supporting 800 x 600 or greater resolution with at least 256 colors

Set DPI Setting to 96 DPI

Golfsoft ™
GS Software

2. INSTALLATION AND SETUP

The application and **Handicap Creator 2011** must be installed to the C: drive, before the application can run properly. Please look at the appropriate instructions below.

2.1 Installing from Website

To install application from Golfsoft Software website:
1. Logon to the Golfsoft Software website (www.golfsoftsoftware.ca).
2. Click the **18-Hole Stroke Play** hyperlink.
3. Click the **Download Application** hyperlink and save to your desktop.
4. When the download is complete and successful, logoff from the website.
5. Double-click the Stroke18Setup icon from your desktop.
6. Delete the Stroke18Setup icon from your desktop.

2.2 Installing from CD-ROM

To install application from CD-ROM:
1. Turn on your computer and start Microsoft Windows 95/98/2000/ME/XP/Vista.
2. Place the application **CD** in your CD-ROM drive.
3. If AutoPlay is enabled, the installation will begin once the drive closes, follow the on-screen instructions.
   Or
   If Auto Play is not enabled, you will need to manually install the application. Double-click the **My Computer** icon on your desktop, double-click the icon for your CD-ROM drive, and then double-click the **Stroke18Setup.exe** icon. Once the installation begins follow the on-screen instructions.

2.3 Uninstalling Application

To uninstall application:
1. Turn on your computer and start Microsoft Windows 95/98/NT4/2000/ME/XP/Vista.
2. Click the **Start** button on the taskbar, point to **Settings**, and then click **Control Panel**.
3. Double-click **Add or Remove Programs**, select **Golfsoft Software 18-Hole Stroke Play**, and then click **Add/Remove** to uninstall the application.

2.4 Using Application

2.4.1 Starting Application

To start **18-Hole Stoke Play** application from the **Start Menu**, click the **Start** button on the task bar, point to **Programs**, then **Golfsoft Software**, and then select **18-Hole Stroke Play** to launch the application.

To start **18-Hole Stoke Play** application from the **Handicap Manager 2011**, click the **18-Hole Stoke Play** button.

To start **18-Hole Stoke Play** application from the **desktop**, double-click the **18-Hole Stoke Play** application icon on your desktop.

2.4.2 Start Up

Once the application is started, a **Start Up** window will appear.

2.4.3 Command Buttons

2.4.3.1 System Manager Access

Click the **System Manager Access** button to obtain access to the main **18-Hole Stroke Play** application. If the application is password protected, type in the System Manager password and click the **OK** button.

2.4.3.2 Sign Up

This command button allows members to sign up their name and other players to the 18-hole stroke play competition, which has been previously setup by the System Manager. The response to this button will require the member to enter his/her access code.

To sign up for the competition, click the **Sign Up** button and enter a valid access code. These actions will open the **Tee Times** dialog.

When the **Tee Times** dialog opens, the **Current Mode** will be *Sign Up* mode (Follow the instructions in Section 4.6.4). Click **Exit** from the menu bar, to close the dialog.

Golfsoft ™
GS Software

2.4.3.3   Remove

This command button allows members to remove their name and players that they signed up. The response to this button will require the member to enter his/her access code.

To remove names from the competition, click the **Remove** button and enter a valid access code. These actions will open the **Tee Times** dialog.

When the **Tee Times** dialog opens, the **Current Mode** will be *Delete* mode (Follow the instructions in Section 4.6.5). Click **Exit** from the menu bar, to close the dialog.

2.4.3.4   Print Scorecards

This command button allows members to print their scorecard and for players that they signed up. The response to this button will require the member to enter his/her access code.

To print scorecard(s), click the **Print Scorecards** button and enter a valid access code. These actions will open the **Print Scorecards** dialog.
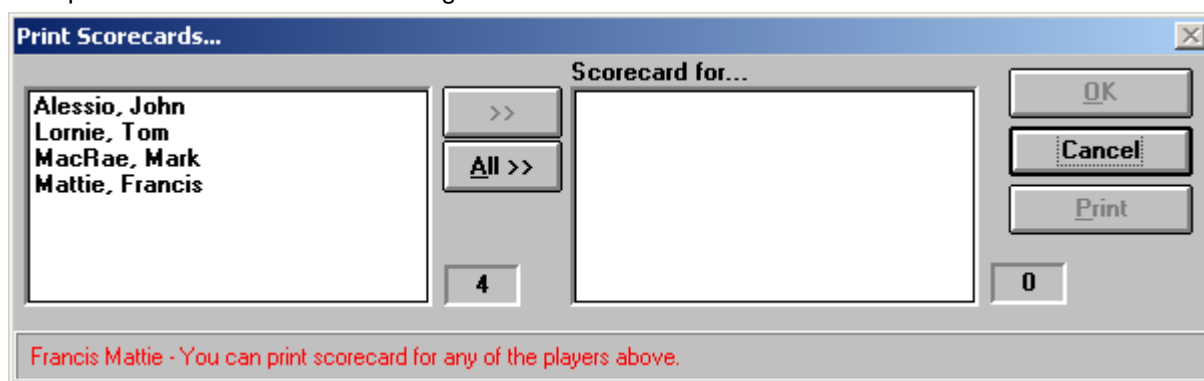

1.   Select players from the list on the left:
     - Double-click players name,
     - Click players name and click the **>>** button or
     - Click the **All >>** button to select all players.
2.   Click the **Print** button.

Golfsoft ™ GS Software

2.4.3.5 Add Scores

This command button allows members to add their score and for players that they signed up. The response to this button will require the member to enter his/her access code.

To add score(s), click the **Add Scores** button and enter a valid access code. These actions will open the **Add Scores…** dialog.
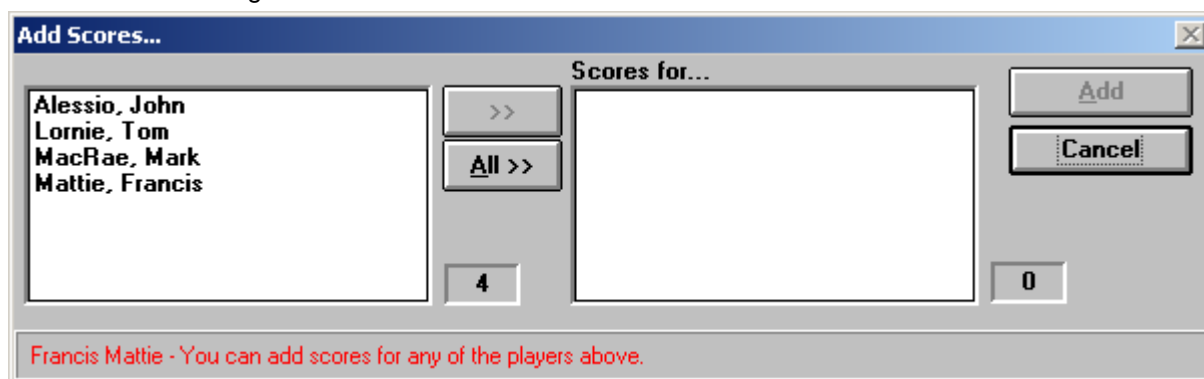

1. Select players from the list on the left:
   - Double-click players name,
   - Click players name and click the **>>** button or
   - Click the **All >>** button to select all players.
2. Click the **Add** button.
3. Enter each player's hole-by-hole score and click the **Enter** button (See Section 3.6.1.2 for instructions).

2.4.3.6 Cancel

Click the **Cancel** button or press the **Esc** key from the keyboard to exit the **Start Up** window.

Golfsoft ™
GS Software

3. MAIN MENU

The *menu bar* contains a list of menu items. Some commands carry out an action immediately; others display a dialog so that you can select options, or a dropdown menu. Dimmed menu items are unavailable.

A menu item followed by an ellipsis (…) opens another dialog.

To access any of the menu items, click the item or press the **Alt** key from the keyboard and at the same time press the underscored letter of the menu item. Some of the menu items have dropdown menu items.

3.1 File

The **File** menu item offers commands to 6 dropdown menus:

File
New…
Open…
Close
Delete…

Print Setup…

Exit
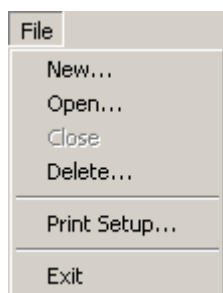

3.1.1 New…

To create a new event, click **File|New…** from the menu bar. This opens a **New Event** dialog, which displays the default options for the 18-hole stroke play event. Set and select the options and click the **Add** button.

Name of Event – This text box allows users to enter the name of the event or competition.

Tournament – This check box selects the event as a tournament.

Golfsoft ™
GS Software

Stableford – This check box selects the competition format as Stableford stroke play. This option will determine the availability of some menus and options. If the **Handicap** option is selected to *Gross, Net or Callaway* format, this check box will be disabled. *Gross & Net* or *Net & Gross* format must be selected to enable this check box.

Stableford scoring systems are stroke-play formats in which the high total wins, not the low. That is because in Stableford, your final score is not your stroke total, but rather the total points you have earned for your scores on each individual hole.

Date – This is the date of the competition. Click the **Calendar** button, to select the date from the popup calendar. The popup calendar displays instructions.

<<	March 2008	>>

Press Enter Key to Accept or
double click selection box.
Press Esc Key to Cancel
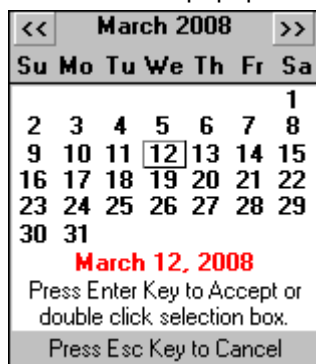

Handicap – This combo box allows users to select one of five options: *Gross, Net, Gross & Net, Net & Gross* or *Callaway* format.

Allowance – This combo box allows users to select one of four options: *100%, 95%, 90%* or *80%*. This control is not available, if the **Handicap** option is set to: *Gross*.

Skins – This check box enables skins and allows users to set skins options.

- **Handicap** – This combo box allows users to select one of two options: *Gross* or *Net*.
- **Allowance** – This combo box allows users to select one of four options: *100%, 95%, 90%* or *80%*. This control is not available, if the **Handicap** option is set to: *Gross*.
- **Entry Fee** – This text box allows users to enter the entry fee for the skins competition.

Type of Stroke Play – These options allows users to select the type of stroke play.

Entry Fee

- **Member** – This text box allows users to enter the entry fee for members.
- **Non-Member** – This text box allows users to enter the entry fee for non-members.
- **Pay** – This text box allows users to enter the collector of the entry fee for the competition or where to pay the entry fee.
- **Total Collected** – This box displays the total amount of money collected for the competition.

Click **Add** button when finished.

Golfsoft™ Software

3.1.2 Open

To open an event that has been previously created, click **File|Open…** from the menu bar. Select the event from the list and click the **Open** button.

3.1.3 Close

To close an opened event and return to the main screen, click **File|Close** from the menu bar.

3.1.4 Delete

To delete an event from the database, click **File|Delete…**from the menu bar. Select the event from the list and click the **Delete** button.

3.1.5 Print Setup

To set the properties of the default printer, click **File|Print Setup** from the menu bar.

3.1.6 Exit

To exit the application, click **File|Exit** from the menu bar.

3.2   Courses…

To execute the Courses Management application (COURSES.EXE), click **Courses…** from the menu bar.
See the *Courses Management User Manual* for instructions.

3.3   Members…

To execute the Members Management application (MEMBERS.EXE), click **Members…** from the menu bar.
See the *Members Management User Manual* for instructions.

3.4   Non-Members…

To execute the Non-Members Management application (NONMEMS.EXE), click **Non-Members…** from the menu bar.
See the *Non-Members Management User Manual* for instructions.

Golfsoft ™
GS Software

3.5 Sign Up…

This menu item is not available, if the **Type of Stroke Play** option has been set to *Inter-Club*. The **Inter-Club Scorecard** dialog is used to sign up players.

To access the **Sign Up Players** dialog, click **Sign Up…** from the menu bar.
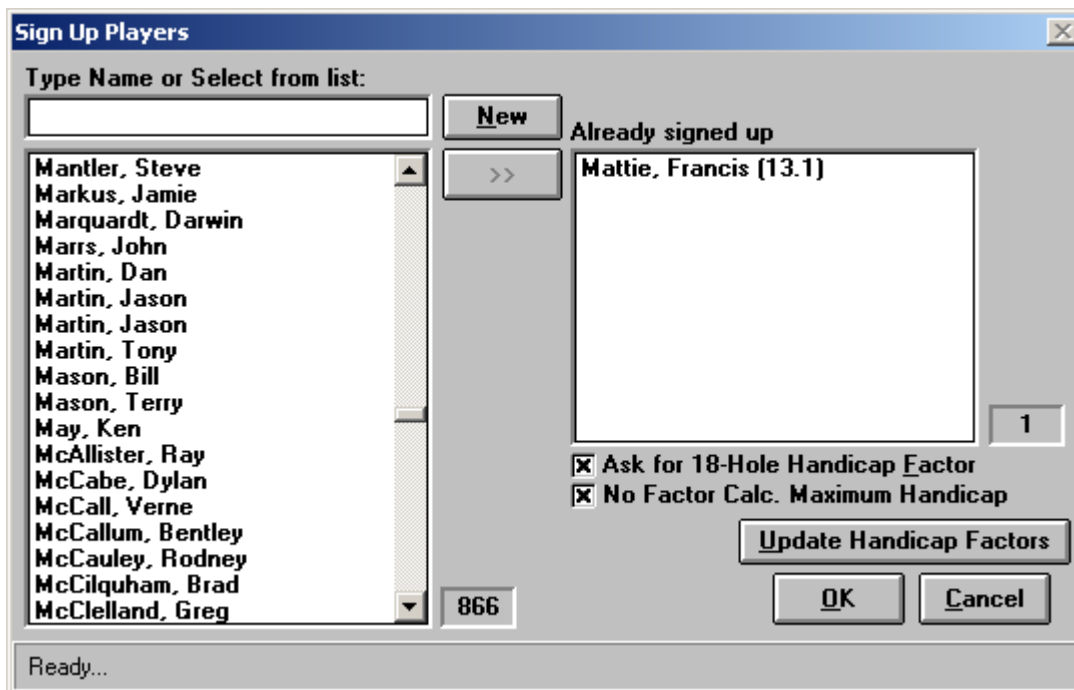

Note: To sign up players directly to tee times, sign up players through the **Tee Times** command button option, as described in Section 4.6.4.

To sign up players, select names from the list on the left.

To remove a player, click the name from the list on the right.

Ask for 18-Hole Handicap Factor – This check box selects the option of prompting the user to enter a manual Handicap Factor.

No Factor Calc. Maximum Handicap – This check box selects the method for calculating the player's Handicap, if the player has no Handicap Factor. If checked, the player's Handicap will be calculated from the maximum Handicap Factor allowed for the gender of the player. If not checked, the Handicap will be zero or scratch.

Update Handicap Factors – This command button updates Handicap Factors and recalculates Handicaps for each player in the member's database.

New – This command button allows users to add a new player to the non-members database. If the **Members Only** option has been selected, this button will be disabled.

Golfsoft™
GS Software

3.6 Scores

To access the **Scores** dialog, click **Scores…** from the menu bar. The **Scores** dialog display will vary, depending on what options have been chosen. The text of the dropdown menu items will also vary and some menu items will be disabled.

There are two types of scores displays: *Individual scores* (See Section 3.6.1) and *Inter-Club scores* (See Section 3.6.2).

3.6.1 Individual Scores

This dialog allows users to:

- Add, edit and view player scores.
- Select first place play-off winners.
- Toggle between viewing skins only and hole-by-hole total scores.
- View Handicaps or Handicap Factors.
- Print skins results.
- Print net, gross, net & gross, gross & net and Callaway scores.
- Print Stableford points to the default printer.
- Print scorecards.

3.6.1.1 Exit

To exit the **Scores** window, click **Exit** from the menu bar.

3.6.1.2 Add

The **Add** menu item offers commands to 2 dropdown menus.
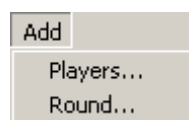

To add players:

1. Click **Add|Players…** from the menu bar.
2. Select players from the list on the left and click the **Add** button.

To add player's round:

1. Click **Add|Round…** from the menu bar
   or
   press **F5** key from keyboard.
2. Select player from the list and click the **Add Round** button.
   Note: Players will not appear in the list, if their round has been added.

3. Type the hole-by-hole scores and click the **Enter** button.
   The flashing arrow (not shown) indicates the current hole.

If no scores are available, you can select any of the 4 check boxes: Did Not Show, Did Not Finish, Disqualified and Did Not return Scorecard.

3.6.1.3 Edit

The **Edit** menu item offers commands to 4 dropdown menus.

```
Edit
  Round...
  Handicap...
  Handicap Factor...
  Playoff Winner...
```

To edit player's round:

1. Click **Edit|Round…** from the menu bar
   or
   press **F6** key from the keyboard.
2. Select player from list and click the **Edit Round** button.
   Players will not appear in the list, if their round has not been added.
3. Edit hole-by-hole scores of the selected player and click the **OK** button.
   To move the flashing arrow, click the **Hole Number** display area, above the hole-score that requires adjustment.

To edit player's Handicap:

1. Click **Edit|Handicap…** from the menu bar.
2. Select player from list and click the **Edit Hcp** button.
3. Enter new Handicap and click the **OK** button.

To edit player's Handicap Factor:

1. Click **Edit|Handicap Factor…** from the menu bar.
2. Select player from list and click the **Edit HF** button.
3. Enter new Handicap Factor and click the **OK** button.

To edit or select the playoff winner:

1. Click **Edit|Playoff Winner…** from the menu bar.
2. Select playoff winner from the list and click the **Winner** button or click **Reset** button to reset playoff winner selection.

3.6.1.4 Delete

The **Delete** menu item offers commands to 2 dropdown menus.

```
Delete
  Players...
  Players with No Scores...
```
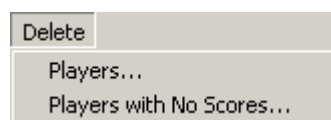

To delete players:

1. Click **Delete|Players…** from the menu bar.
2. Select players from the list and click the **Delete** button.

To delete players without scores:

1. Click **Delete|Players with No Scores…** from the menu bar.

3.6.1.5 View

The **View** menu item offers commands to 12 dropdown menus. Depending on what options that were previously selected, some menu items may vary. The text of the dropdown menu items will also vary and some menu items may be disabled.

```
View
    Flight                        ▶
    Gross Scores
    Net Scores
    Callaway Scores
    Equitable Stroke Control
 ✔  Stableford Points
    Skins Only                    ▶
 ✔  Handicap Factors
    Handicaps
 ✔  Show Scores
    Hide Scores
    Qualifying Players...
    Range...
    All
```
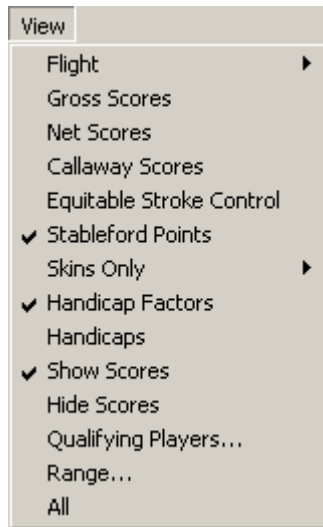

If the 18-hole stroke play competition is broken into flights, click **View|Flight ▶|x Flight (y to x)** from the menu bar. Where, x is the flight letter (A to O), y and x is the Handicap range.

To view gross scores, click **View|Gross Scores** from the menu bar.

To view net scores, click **View|Net Scores** from the menu bar.

To view Callaway scores, click **View|Callaway Scores** from the menu bar.

To view Equitable Stroke Control scores, click **View|Equitable Stroke Control** from the menu bar.

To view skins only, click **View|Skins Only ▶|x Flight (y to x)** from the menu bar. Where, x is the flight letter (A to O), y and x is the handicap range.

To view Handicap Factors, click **View|Handciap Factors** from the menu bar.

To view Handicaps, click **View|Handicaps** from the menu bar.

To hide scores, click **View|Hide Scores** from menu bar and show scores, click **View|Show Scores**.

To view qualifying players only:
1. Click **View|Qualifying Players…** from the menu bar.
2. Select Handicap range and click the **OK** button.

To view a range of handicaps:
1. Click **View|Range…** from the menu bar.
2. Select Handicap range and click the **OK** button.

To view all players, click **View|All** from the menu bar.

3.6.1.6 Skins

The **Skins** menu item offers commands to 3 dropdown menus. If the **Skins** option has not been selected, this menu item will be disabled.
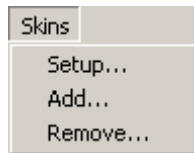

To setup skins:

1. Click **Skins|Setup…** from the menu bar.
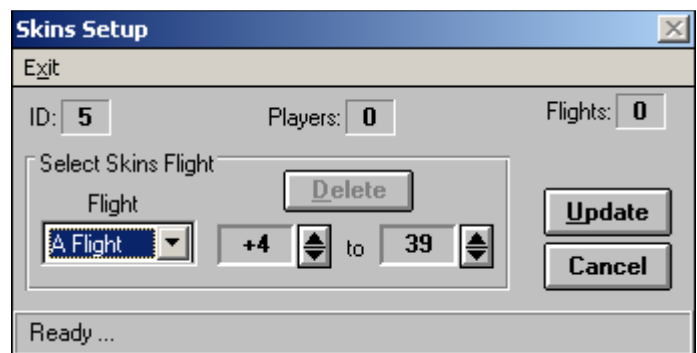

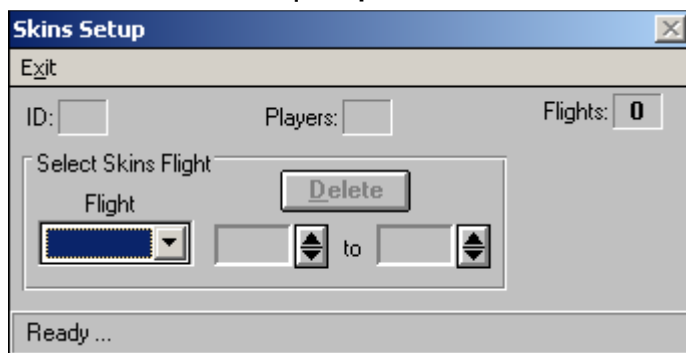

2. Select **Flight** option and range.
3. Click **Update** button.
4. Repeat Steps 2 and 3 for more flights.
5. Click **Exit** from the menu bar when finished.

To add players playing skins:

1. Click **Skins|Add** from the menu bar.
2. Click players from the list on the left and click **OK** button.

To remove players playing skins:

1. Click **Skins|Remove** from the menu bar.
2. Click players from the list on the left and click **OK** button.

Golfsoft™
GS Software

3.6.1.7   Print

The **Print** menu item offers commands to 5 dropdown menus.

Depending on the options that were chosen, some menu items will vary from what is shown below. The text of the dropdown menu items will also vary.

```
Print
    Gross Scores (+4 to 12)
    Net Stableford Points (+4 to 12)
    Gross & Net Winners (+4 to 12)
    Skins
    Scorecards                        ▶
```
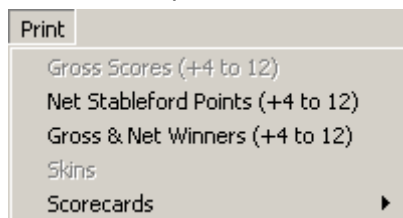

Depending on what options have been chosen, some menu items will be disabled.

First Dropdown Menu Item:

To print net scores, click **Print|Net Scores** from menu bar (See sample in Section 6.6).
> **Handicap**: Net, Net & Gross.
> **Stableford**: clear.

To print gross scores, click **Print|Gross Scores** from the menu bar (See sample in Section 6.7).
> **Handicap**: Gross, Gross & Net.
> **Stableford**: clear.

To print Callaway scores, click **Print|Callaway Scores** from the menu bar (See sample in Section 6.8).
> **Handicap**: Callaway.
> **Stableford**: clear.

Second Dropdown Menu Item:

To print net Stableford points, click **Print|Net Stableford Points** from menu bar (See sample in Section 6.11).
> **Handicap**: Gross & Net, Net & Gross,
> **Stableford**: Net.

To print gross Stableford points, click **Print|Gross Stableford Points** from the menu bar (See sample in Section 6.12).
> **Handicap**: Gross & Net, Net & Gross.
> **Stableford**: Gross.

To print quota Stableford points, click **Print|Quota Stableford Points** from the menu bar (See sample in Section 6.13).
> **Handicap**: Gross & Net, Net & Gross,
> **Stableford**: Quota.

Fourth Dropdown Menu Item:

To enable this menu item, the display format must be *Skins Only*. See **View Skins Only** Section 3.6.1.5.

To print skins results, click **Print|Net Skins Results** from the menu bar.
> **Skins**: select.
> **Skins Handicap**: Net

To print skins results, click **Print|Gross Skins Results** from the menu bar (See sample in Section 6.1).
> **Skins**: select.
> **Skins Handicap**: Gross

Golfsoft™
GS Software

Fifth Dropdown Menu Item*:*

To print official scorecards, click **Print|Scorecards ►Official Scorecards…** from the menu bar (See sample in Section 6.14.1).

To print Stableford scorecards, click **Print|Scorecards ►Stableford…** from the menu bar (See samples in Sections 6.14.2, 6.14.3 and 6.14.4).

        Stableford: select

Third Dropdown Menu Item*:*

To print low gross and low net winners, click **Print|Gross and Net Winners…** from the menu bar (See sample in Section 6.9).

        Handicap: Gross & Net.

4.   COMMAND BUTTONS

You choose a *command button* to initiate an action, such as carrying out or cancelling a command. Common command buttons are **OK** and **Cancel**. They are often located along the bottom or on the right side of the dialog.

A command button, followed by an ellipsis (…) or a double greater-than sign (>>) opens another dialog box.

Unavailable command buttons are dimmed. The currently selected button has a darker border than other buttons. You can choose the currently selected button, simply by pressing the **Enter** key.

To choose a command button, click the command button. Or press the **Tab** key until the button you want is selected, and then press the **Enter** key.
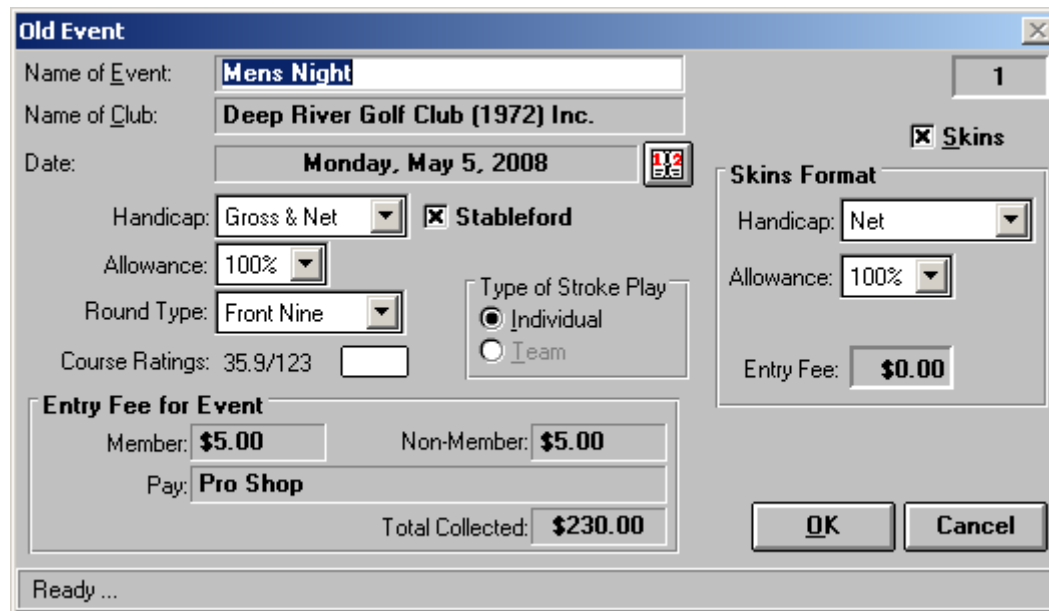

After you start a new event or open an old event, the screen will display several command buttons:

Event	Signup Sheet	Courses	Flights	Stableford	Tee Times

Simply, click the appropriate command button.

4.1   Event

This command button opens the **Old Event** dialog, which allows users to edit changes to parameters that were set during create new event procedure (See Section **Error! Reference source not found.**).

Golfsoft™
GS Software

4.2   Signup Sheet

This command button opens the **Signup Sheet** dialog, which allows users to determine who can play in the competition.
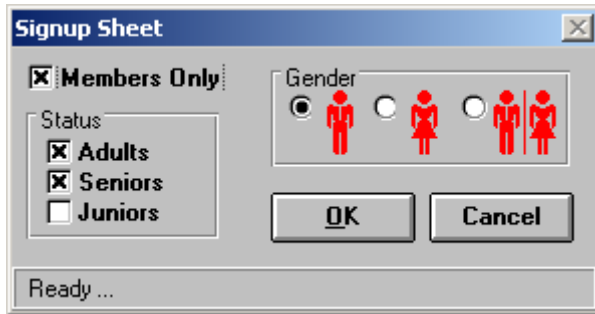

Members Only – This check box determines if non-members can play in the competition.

Status – Select one or multiple options.

Gender – Select one of three options.

- Click the **OK** button, to accept changes.

Golfsoft™ GS Software

4.3　　　Courses

This command button opens the **Courses** dialog, which allows users to modify the current course information, such as: yardage, par or handicap. This dialog also allows users to select the tees of the home course or select an away course and the tees.

Search by | 423

Type the ID number of the away course, then press the Enter key...

List of Courses – This combo box allows the user to select an away course from the COURSES database. If the ID number of the course is known, the away course may be select with the **Search by** button. Click the **Search by** button and enter the ID number in the appearing text box.

To select the tees, click the appropriate button displaying the color of the tees or type the number that is displayed on the button.

GS Software

4.4 Flights

This command button opens the **Select Flights** window and allows the user to set flights of the competition. Up to 15 flights may be selected. The dialog also displays the number of players in each flight and the players in the competition. Initial start up of this dialog, during a new event setup, the number of flights is usually zero and the flight boxes are not visible.

Flights – This scroll control allows the user to set the number of flights. As you increase or decrease the number of flights, flight details are made visible or not visible, respectively.

Set Min / Max – Click this command button to fill in all the fields displaying the flight ranges. The first flight will display the minimum Handicap and last flight will contain the maximum Handicap.

Flight Spin Controls – Click the up arrow of the appropriate spin control and hold down the mouse button, then release the mouse button when the desired Handicap range is displayed. Likewise, repeat the latter by clicking the down arrow of the appropriate spin control to decrement the desired Handicap range.

Manual Maximum Handicap – Select this check box to use a manual maximum Handicap. After selecting this option, select the manual maximum Handicap with the spin control and click the **Set Min / Max** button.

Use 18-Hole Factor – Select this check box to use 18-hole Handicap Factor of players to calculate their 9-hole Handicap.

- Click the **OK** button, to accept changes.

![Golfsoft™ GS Software logo]

4.5 Stableford

This command button opens the **Stableford Points** window and allows the user to change or set up the Stableford points for: hole-in-one, double eagle, eagle, birdie, par, bogey, double bogey, and triple bogey. The dialog also allows the user to set the format and percent handicap allowance.
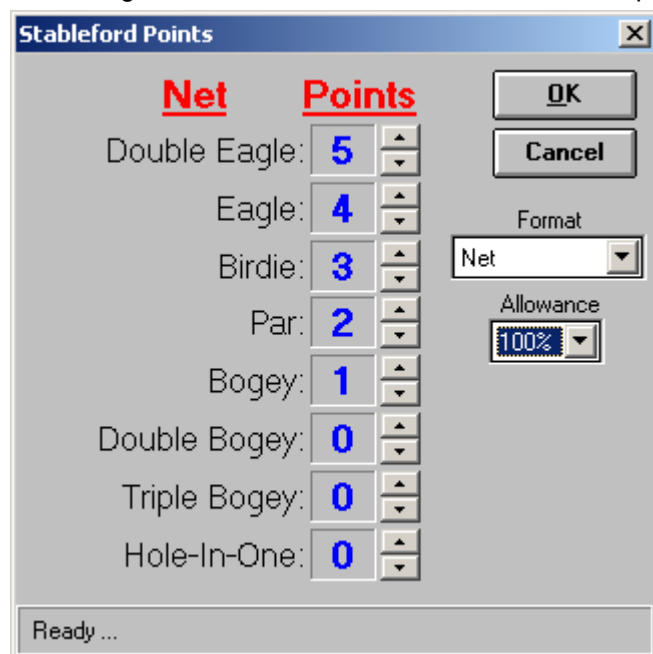

To set the points, click the appropriate **Up** and **Down** scroll arrows.

Format – This combo box allows the user to select one of three format options: Gross, Net or Quota.

Allowance – This combo box allows the user to select one of four percentages options: 100%, 95%, 90% or 80%. This option is used by the application to calculate Handicaps and Handicap Factors. This option is not available, if Gross or Quota format option has been selected.

If Quota option is selected, players start with half their 18-hole Handicap. For example, a player with an 18-hole Handicap of 17 would start with 8.5 points.

- Click the **OK** button, to accept changes.

Golfsoft ™ GS Software

4.6 Tee Times

This command button opens the **Tee Times** dialog, which allows the user to:

- Setup the draw.
- Signup players.
- Check in players (paid).
- Add players that have been signup with another method.
- Edit Handicap Factors.
- Replace or switch players.
- Replace or switch starting tees.
- Delete players from the tee sheet only or from the competition.
- Print signup sheets and tee times.

4.6.1 Exit

To exit the **Tee Times** dialog, click **Exit** from the menu bar.

Golfsoft™
GS Software

4.6.2   Setup Draw…

To open the **Tee Times Setup** dialog, click **Setup Draw…** from the menu bar.

After selecting options and setting parameters, click the **OK** button to accept.

Date – This box displays the date of the competition.

Type of Course – These options select the type of course and how many holes are displayed in the **Starting Groups Per Tee** frame.

Morning and Afternoon Draw

> **Start Time** – This display area is used to set the starting tee time or first tee time. The **Hour** spin control is for setting the hour and the **Minute** spin control is for setting the minutes.

> **Interval** – This display area is used to set the time interval (in minutes) between tee times. If the **Shotgun** check box is selected, the spin control is disabled.

> **Shotgun** – This check box selects the event to a shotgun start, otherwise tee times.

> **Players** – This text box sets the maximum number of players that can play in the event. Use the spin control to the right to increase or decrease this number.

> **Groups** – This box displays the number of groups.

> **Group Size** – These options select the group size.

> **Starting Groups Per Tee** – These spin controls allow you to set the number of groups that start on each hole during a shotgun start. If the **Shotgun** check box is not selected, this frame will not be visible.

4.6.3 View

The **View** menu item offers commands to 3 dropdown menus.

Click the appropriate dropdown menu item to view Players, Teams or Handicap Factors.

4.6.4 Sign Up

To set the **Current Mode** in *Sign Up* mode, click **Sign Up** from the menu bar. The *Sign Up* mode allows users to sign up players to tee times and scorecard. While in *Sign Up* mode, available tee times are displayed in yellow background.

To enter a player's Handicap Factor manually, select the **Ask for Handicap Factor** check box; otherwise the application will extract the current Handicap Factor of the player from the member's database. Handicap Factors for Non-Members must be entered manually.

To sign up multiple players using the display above:

1. Click the **>>>>** box.
2. Select each player from the list and click the **OK** button.
3. If the **Ask for Handicap Factor** check box is selected, enter the player's Handicap Factor and click the **OK** button.

To sign up a single player:

1. Click one of the yellow boxes.
2. Select player from the list and click the **OK** button.
3. If the **Ask for Handicap Factor** check box is selected, enter the player's Handicap Factor and click the **OK** button.

To turn off *Sign Up* mode, click **Done** from the menu bar.

4.6.5 Check In

To set the **Current Mode** in *Check In…* mode, click **Check In** from the menu bar. The *Check In* mode allows users to select or unselect players that paid their entry fee to the competition. Paid players are displayed in yellow background and unpaid players are displayed in white background.

Click the appropriate box to select or unselect paid players.

When the player is checked in and not on the scorecard, that player will be added to the scorecard.

To turn off *Check In* mode, click **Done** from the menu bar.

4.6.6 Add

To set the **Current Mode** in *Add* mode, click **Add** from the menu bar. The *Add* mode allows users to sign up players to tee times. While in *Add* mode, available tee times are displayed in yellow background.

Add mode is similar to *Signup* mode, except:

- The selection list is limited to players that were signup using the **Signup…** menu item.
- Players are not added to the scorecard.
  To add players to scorecard you must use the **Check In** option, described in Section 4.6.5 or add the player via the **Scores** dialog, described in Section 3.6.1.2.

To turn off *Add* mode, click **Done** from the menu bar.

4.6.7 Edit

To set the **Current Mode** in *Edit* mode, click **Edit** from the menu bar. The *Edit* mode allows users to:

- Perform random draw of starting holes for shotgun start tee times.
- Clear tee times display.
- Edit starting holes and tee times.
- Load players from signup sheet.
- Import players from **Tee Time** application.
- Update and adjust Handicap Factors.

To perform a random draw of starting holes for shotgun start tee times, click the **Draw Tees** button once or several times.

To clear the tee times display, click the **Clear** button.

To edit starting hole, click the tee name that you want to change in the **Tee** column and enter the new starting hole or tee name.

To edit tee time:

1. Click the tee time that you want to change in the **Time** column.

The **Hour** spin control is for setting the hour and the **Minute** spin control is for setting the minutes.

2. Adjust the **Hour** and **Minute** spin control.
3. Select Morning, Afternoon or Evening option.
4. Click the **OK** button.

To update Handicap Factors and recalculate Handicaps:

1. Click the **Update Handicap Factors** button.
2. To update Handicap Factors and recalculate Handicaps automatically from the member's database, click the **Yes** button; otherwise click the **No** button.
   The dialog is now in **Update Handicap Factors** mode.
3. To edit a player's Handicap Factor, click the box containing the player's name and enter their Handicap Factor, and then click the **OK** button or press **Enter** from the keyboard. The application will recalculate the player's Handicap.

To set or edit starting tees:
   1. Click the box in the **Tee** column and enter the starting tee and click the **OK** button or press **Enter** from the keyboard.
   2. When you are finished setting or editing starting tees, click **Done** from the menu bar.

To set or edit tee times:
   1. Click the box in the **Time** column and set the tee time and click the **OK** button or press **Enter** from the keyboard.
   2. When you are finished setting or editing starting tees, click **Done** from the menu bar.

To turn off *Add* mode, click **Done** from the menu bar.

4.6.8   Replace

To set the **Current Mode** in *Replace* mode, click **Replace** from the menu bar. The *Replace* mode allows users to:
   • Replace one player with another.
   • Replace starting hole.
   • Delete player from tee time display only.

To replace players, click one player's name then click the other player's name.

To replace starting holes, click one tee name then click the other tee name.

To delete a player from the tee time display only, click the player's name then click the waste basket and click the **Yes** button from the Confirmation window.

To turn off *Replace* mode, click **Done** from the menu bar.

4.6.9   Delete

To set the **Current Mode** in *Delete* mode, click **Delete** from the menu bar. The *Delete* mode allows users to delete players and tee times from the tee time display.

To delete a player, click the player's name and click the **Yes** button on the **Confirm…** window.

To delete a tee, click the tee name in the **Tee** column and click the **Yes** button from the Confirmation window.

4.6.10   Print

The **Print** menu item offers commands to 2 dropdown menus.
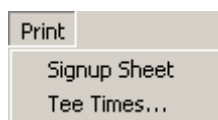

To print signup sheets, click **Print|Signup Sheet** from the menu bar.

To print tee times:
   1. Click **Print|Tee Times** from the menu bar.
   2. Select one of two options and click the **OK** button.

4.6.11   Done

To set the **Current Mode** to *No Mode*, click **Done** from the menu bar.
