1.   GETTING STARTED

This *User Manual* will help you to familiarize yourself with the **Friday Stableford** application. The dialog boxes and controls in this *User Manual* may appear different from the dialog boxes and controls that appear on your computer screen.

1.1   What is Friday Stableford?

Friday Stableford is a nine-hole, gross quota, team competition with a minimum of three and a maximum of four players per team. Friday Stableford is played at the Deep River Golf Club every Friday from dawn to dusk, weather permitting. Players can play as many 9-hole rounds as they like, with whomever they like, if tee times are available. The entry fee is $2.00 for each player for each 9-hole round and the prize money is distributed 50% for first place, 30% for second, and 20% for third, based on a plus/minus points system. If the total amount collected is below a certain amount, the prize money is distributed 60% for first place and 40% for second. The application allows the entry fee to be changed. Points are awarded in relation to par at each hole.

The application calculates and prints the points needed by each player every week. Points are originally calculated based on the player's current handicap factor, until the player has played at least five 9-hole rounds. After a player signs up the team, a scorecard can be printed, displaying each player and their points needed and the team total points needed. The scorecard also displays the currently selected points in relation to par.

After all the 9-hole rounds are posted into the system, the application allows the users to print the team scores hole-by-hole in the team's plus/minus points order, from the highest to the lowest plus/minus points. The application also calculates the money distribution and prints the final results to the default printer.

The **Friday Stableford** application is designed to allow players to:

- Sign up their team of 3 or 4.
- Print their team's scorecards.
- Modify team players.
- Remove their team from a round that they signed up for and they did not start the round.
- Add and edit their team's scores.

This *User Manual* describes all the steps necessary to complete a Friday Stableford event.

Please take a moment to familiarize yourself with the text conventions, terms, and controls used in this *User Manual*.

1.2   Text Conventions

The examples below explain the specially formatted text used in this *User Manual*.

- Dialog boxes and control names appear in bold type: **Select Member** dialog
- Keyboard key names appear in bold type: **Home**, **End**, **Backspace**, **Tab**
- Keyboard keys that must be pressed at the same time to perform a task appear in bold type with a plus (**+**) between the key names: **Alt+H**
- Drives appear as capital letters: drive C
- File names appear in italics with an initial capital letter: *Setup.exe*
- Command line statements appear in lower case bold type: **a:\install**
- Names of icons appear in bold type: **My Computer** icon
- Menu items, option buttons, and check boxes appear in bold type: **Programs**, **Accessories**, **Tournament** option, **Use 18-Hole Factor** check box

Golfsoft ™ GS Software

1.3   Terms

You can use either a single-button mouse or a multiple-button mouse with this application.

If you have a multiple-button mouse, the left mouse button is the primary mouse button, unless you have configured it differently. Any procedure that requires you to click the secondary button will refer to it as "the right mouse button."

If you have a single-button mouse, pressing the **Ctrl** key while clicking the mouse button is the same as clicking the right mouse button.

This *User Manual* uses the following terms.

Term	Meaning
Friday Stableford	Name of application.
Press	Strike a key from the keyboard.
Type	Strike a key from the keyboard to display text on the screen. Do not press the **Enter** key after entry is complete, unless instructed to do so.
Enter	Type the entry, then press the **Enter** key.
Point	Position the mouse pointer until the tip of the pointer rest on whatever you want to point to on the screen.
Click	Point, press and immediately release the left mouse button without moving the mouse.
Double-click	Point, press and immediately release the mouse button twice without moving the mouse.
Drag	Point and then hold down the mouse button as you move the mouse.
Choose	Click a command button. Click an item from a menu bar or dropdown menu.
Select	Click a command button. Click an item from a menu bar or dropdown menu. Click an option button to make a black dot appear. Click a check box to make an **X** appear. Click and item in a list box, then click **OK**, or double click and item in a list.
Clear	Click an option button to make the black dot disappear. Click a check box to make the **X** disappear.

In Windows, the terms *choose* and *select* have different and specific meanings. Selecting an item usually means mark it with the selection cursor, which can appear as a highlight, a dotted rectangle, or both. You also select *check boxes* and *option buttons* in dialogs. Selecting alone does not initiate an action.

You choose an item to carry out an action. For example, choosing a command button or menu item might open a dialog or carry out a command. You often need to select an item before you can choose it.

1.4   Controls

You can use a combination of mouse and keyboard techniques. For example, you could click an item to select it, and then press **Enter** from the keyboard to choose it. When a procedure in this *User Manual* says to choose an item, generally you can use whichever method you prefer.

This section gives basic information about controls and their functions. Throughout this *Guide*, the control name will be in bold type. For example, select **OK** or select **Courses Table** check box. The controls found in the **9-Hole Stroke Play** application are similar as shown below.
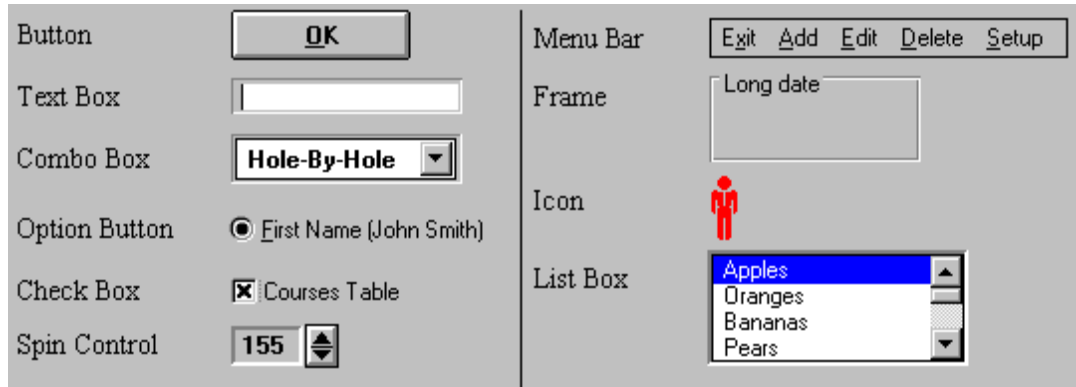

1.4.1 Button or Command Button

You choose a *command button* to initiate an action, such as carrying out or cancelling a command. Common command buttons are **OK** and **Cancel**. They are often located along the bottom or on the right side of the dialog.

A command button, followed by an ellipsis (…) or a double greater-than sign (>>) opens another dialog box.

Unavailable command buttons are dimmed. The currently selected button has a darker border than other buttons. You can choose the currently selected button, simply by pressing the **Enter** key.

To choose a command button, click the command button. Or press the **Tab** key until the button you want is selected, and then press the **Enter** key.

1.4.2 Text Box

You type information into a *text box*. When you move to an empty text box, an *insertion point* (a flashing vertical bar) appears. The text you type starts at the insertion point.

If the box you move to already contains text, and the text is highlighted, any text you type replaces it. You can also delete the existing text by pressing the **Delete** key or **Backspace** key.

To select text in a text box, drag the pointer across the text, or double-click a word to select one word at a time. Or press and hold down the **Shift** key while pressing an **Arrow** key.

1.4.3 Combo Box

A *combo box* appears initially as a rectangular box containing the current selection. When you select the down arrow in the square box at the right, a list of available choices appears. If there are more items than can fit in the box, scroll bars are provided.

To open a combo box and select an item:

1. Click the arrow at the right to see a list of available choices.
2. Click the up or down scroll arrow, if visible or drag the scroll box to move to the item you want to select.
3. Click the item.

1.4.4 Option Button

Option buttons represent a group of mutually exclusive options. You can select only one option at a time.

If you already have one option selected, your current selection replaces it. The option buttons are, generally enclosed in a frame. The selected option button contains a black dot. Names of unavailable options are dimmed.

To select an option button, click the option button.

### 1.4.5	Check Box

A *check box* means you can select or clear an option. You can select as many check-box options as needed. When a check box is selected, it contains an **X**. Names of unavailable options are dimmed.

To select or clear check boxes, click the check box.

### 1.4.6	Spin Control

The *spin control* is a control that works with another control, such as a text box to increment and decrement values. It can also, scroll back and forth through a range of values or a list of items.

To continue to increment the value, click the up (or right) arrow of the spin control and hold down the mouse button, then release the mouse button when the desired value is displayed. Likewise, repeat the latter by clicking the down (or left) arrow to decrement the value. If a flashing vertical bar appears when you drag the mouse cursor over the area left of the up (or right) and down (or left) arrows, the control contains a text box. If the area is highlighted or selected you can change the value or list with the up and down (or left and right) arrow keys from the keyboard.

### 1.4.7	Menu Bar

The *menu bar* contains a list of menu items. Some commands carry out an action immediately; others display a dialog so that you can select options, or a dropdown menu. Dimmed menu items are unavailable.

A menu item followed by an ellipsis (…) opens another dialog.

### 1.4.8	Frame

A *frame* groups the controls together. The name of the frame usually describes the group of controls.

### 1.4.9	Icon

Icons are small pictures that represent something. For example, the icon in the previous illustration represents a male. Some icons act as a command button.

### 1.4.10	List Box

A *list box* displays a list of choices. If there are more choices than can fit in the box, scroll bars are provided so you can move quickly through the list. Some list boxes are accompanied with a text box. If you type a letter in the text box the list box scrolls to match the letter you type.

Usually, you can select only one item in a list box. There are some cases when you can select more than one item.

To select a single item from a list box:

- Use the method as described above or
- Click the scroll arrows until the item you want to select appears in the list
- Click the item, and then choose the appropriate command button or double-click the item to select it and complete the command all in one step.

To select multiple sequential items in a list, click the first item you want to select, and then drag the cursor to the last item you want to select.

To cancel the selection, click any item in the list or click the first item you want to select, press and hold down the **Shift** key, and click the last item you want to select. Both items, and all items in between, are selected.

To select multiple non-sequential items in a list, press and hold down the **Ctrl** key, and click each item you want to select.

To cancel a selection, press and hold down the **Ctrl** key, and click the item again.

1.5 System Requirements

The application will operate on the following operating systems and configurations:

- PC with a 266 MHz or greater Pentium-class processor
- Microsoft Windows 95/98/2000/ME/XP/Vista
- 256 MB of RAM or greater
- 15 MB available hard drive space
- CD drive
- Monitor supporting 800 x 600 or greater resolution with at least 256 colors

Set DPI Setting to 96 DPI

2. INSTALLATION AND SETUP

The application must be installed to a hard disk, before it can run. Please look at the appropriate instructions below.

2.1 Installing from Website

To install application from Golfsoft Software website:
1. Logon to the Golfsoft Software website (www.golfsoftsoftware.ca).
2. Click the **Friday Stableford** hyperlink.
3. Click the **Download Application** hyperlink and save to your desktop.
4. When the download is complete and successful, logoff from the website.
5. Double-click the Stroke9Setup icon from your desktop.
6. Delete the Stroke9Setup icon from your desktop.

2.2 Installing from CD-ROM

To install application from CD-ROM:
1. Turn on your computer and start Microsoft Windows 95/98/2000/ME/XP/Vista.
2. Place the application **CD** in your CD-ROM drive.
3. If AutoPlay is enabled, the installation will begin once the drive closes, follow the on-screen instructions.
   Or
   If Auto Play is not enabled, you will need to manually install the application. Double-click the **My Computer** icon on your desktop, double-click the icon for your CD-ROM drive, and then double-click the **Stroke9Setup.exe** icon. Once the installation begins follow the on-screen instructions.

2.3 Uninstalling Application

To uninstall application:
1. Turn on your computer and start Microsoft Windows 95/98/NT4/2000/ME/XP/Vista.
2. Click the **Start** button on the taskbar, point to **Settings**, and then click **Control Panel**.
3. Double-click **Add or Remove Programs**, select **Golfsoft Software Friday Stableford**, and then click **Add/Remove** to uninstall the application.

Golfsoft ™ GS Software

3. GETTING STARTED

3.1 Starting Application

To start **Friday Stableford** application from the **Start Menu**, click the **Start** button on the task bar, point to **Programs**, then **Golfsoft Software**, and then select **Friday Stableford** to launch the application.

To start **Friday Stableford** application from the **Handicap Manager 2011**, click the **Friday Stableford** button.

To start **Friday Stableford** application from the **desktop**, double-click the **Friday Stableford** application icon on your desktop.

3.2 Start Up

Once the application is started, a **Start Up** window will appear.

Start Up

- System Manager Access
- Signup Team
- Modify Team
- Remove Team
- Add Team Scores
- Edit Team Scores

Friday Stableford   **Esc Key** to Cancel

Click any button.

3.2.1 System Manager Access

Click the **System Manager Access** button to obtain access to the main **Friday Stableford** application. If the application is password protected, type in the System Manager password and click the **OK** button.

3.2.2 Cancel

Click the **Cancel** button or press the **Esc** key from the keyboard to exit the **Start Up** window.

Golfsoft™
GS Software

3.2.3 Signup Team

This command button allows a player of the team to:

- Sign up their team of 3 or 4 players (front nine, back nine or both).
- Print their team's scorecards.

To sign up a team, click the **Signup Team** button and enter a valid access code. This action will open the **Sign Up Team** dialog.

Sign Up Team

Ready ...

Note: The access code that is used to sign up the team is required to:

- Modify team.
- Remove the team from the competition.
- Add team's score.
- Edit team's score.

3.2.3.1 Add

The **Add** menu item offers commands to 4 dropdown menus:
To sign up a team:

1. Click **Add** from the menu bar and the appropriate dropdown menu item.
2. Select each player from the **Select Golfer** dialog.
   As you select each player, the player's quota (points needed) will be displayed in the appropriate row in the **N** column.
3. If you selected a front nine team and the same team is playing the back nine, click **Copy** button. You can also add or change a player by selecting the appropriate button on the left side of the scorecard.
4. Click the **Add to Scorecard** button to save the current team players to the system scorecard.
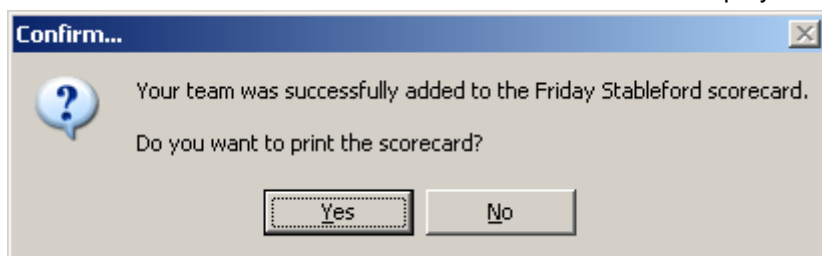

5. If the team was successfully added to the Friday Stableford scorecard, click the **Yes** button to print scorecard(s) (See sample in Section 7.1).

3.2.3.2 Clear

The **Clear** menu item offers commands to 2 dropdown menus:
To clear the front nine, click **Clear|Front Nine** from the menu bar.

To clear the back nine, click **Clear|Back Nine** from the menu bar.

Golfsoft ™
GS Software

3.2.4 Modify Team

This command button allows the player that signed up the team to modify the team. If a player was signed up and did not show, the player can be removed from the team to make a 3-man team or the player can be substituted with another player.

To remove a player:

1. Click the **Modify Team** button.
2. Enter the access code that was used to sign up the team and click the **OK** button.

Scorer:

6. Click the **OK** button to accept changes.

Golfsoft™ GS Software

3.2.5 Remove Team

This command button allows the player that signed up the team to remove the entire team from the competition. This may be necessary, if the team did not start the 9-hole round for some unforeseen reason.

To remove the team from the 9-hole round:

1. Click the **Remove Team** button.
2. Enter the access code that was used to sign up the team and click the **OK** button.

3. Click the button containing the team you want to remove.
4. Click the **Yes** button from the **Confirm…** window.

3.2.6 Add Team Scores

This command button allows the player that signed up the team to add scores for each player on the team.

To add team score for each player:

1. Click the **Add Team Scores** button.
2. Enter the access code that was used to sign up the team and click the **OK** button.

3. Click the button containing the team you want to add scores.

4. Click the **All Above** button.
   Click the button containing the player's name to add one player at a time.
5. Enter each player's hole-by-hole score when prompted to do so.

Golfsoft™ GS Software

6. Click the **Enter** button.
7. After all the scores have been added, click the **OK** button to post scores.

3.2.7 Edit Team Scores

This command button allows the player that signed up the team to edit each player's scores on the team.
To edit player's score:

1. Click the **Edit Team Scores** button.
2. Enter the access code that was used to sign up the team and click the **OK** button.

3. Click the button containing the team and player you want to edit score.

4. Click the button containing the player's name and edit player's score.
5. Click the **OK** button to accept changes.

Golfsoft™ GS Software

4. MENU ITEMS

File Course... Members... Non-Members... Players... Sign Up... Scores... Zip UnZip Help

The *menu bar* contains a list of menu items. Some commands carry out an action immediately; others display a dialog so that you can select options, or a dropdown menu. Dimmed menu items are unavailable.

A menu item followed by an ellipsis (…) opens another dialog.

To access any of the menu items, click the item or press the **Alt** key from the keyboard and at the same time press the underscored letter of the menu item. Some of the menu items have dropdown menu items.

Exit Add Edit Delete

4.5.1.1 Exit

To exit the **Friday Stableford Players** dialog, click **Exit** from the menu bar.

4.5.1.2   Add

The **Add** menu item offers commands to 2 dropdown menus:

To add member to the Friday Stableford database:
1. Click **Add|Member** from the menu bar.
2. Select member from the **Select Golfer** dialog.
3. Click the **Update** button.

To add non-member to the Friday Stableford database:
1. Click **Add|Non-Member** from the menu bar.
2. Select non-member from the **Select Golfer** dialog.
3. Enter non-member's current handicap factor.
4. Click the **Update** button.

4.5.1.3   Edit

To edit player from the Friday Stableford database:
1. Select the row containing the player to edit.
2. Click **Edit** from the menu bar.
3. Make the necessary changes.
4. Click the **Update** button.

4.5.1.4   Delete

To delete player from the Friday Stableford database:
1. Select the row containing the player to delete.
2. Click **Delete** from the menu bar.
3. Click the **Yes** button on the **Confirm…** window.

4.5.2   Command Buttons

4.5.2.1   Print Money List

Click the **Print Money List** button to print money earned by each player during the current season.

4.5.2.2   Update Handicap Factors

Click the **Update Handicap Factors** button to update the Friday Stableford database with Handicap Factors from the Handicap System.

4.5.2.3   Print Points Needed Table

Click the **Print Points Needed Table** button to print points needed table, including player's name, points made in the last five rounds and points needed (See sample in Section 7.5).

Print
    Scores
    Payout
    Payout Labels
To print scores, click **Print|Scores** from the menu bar (See sample in Section 7.3).

To print payout results, click **Print|Payout** from the menu bar (See sample in Section 7.2).

To print payout labels, click **Print|Payout Labels** from the menu bar (See sample in Section 7.4).

4.7.1.8   Export

To export score to the Handicap System:

1.   Click **View|Player Scores** from the menu bar.
2.   Click **Export** from the menu bar.

4.8   Zip and UnZip

Zip
    to Archive
    to USB Drive...

UnZip
    from Archive...
    from USB Drive...
4.8.1   Zip Files

To zip files to `c:\golfsoft\archive\friday.zip`:

- Click **Zip** from the main menu and click **to Archive**.

To zip files to USB Drive:

- Insert USB Drive into USB port.
- Click **Zip** from the main menu and click **to USB Drive**.

4.8.2   Unzip Files

To extract files from `c:\golfsoft\archive\friday.zip` to `c:\golfsoft\friday`:

- Click **UnZip** from the main menu and click **from Archive**.

To extract files from USB Drive to `c:\golfsoft\friday`:

- Insert USB Drive into USB port.
- Click **UnZip** from the main menu and click **from USB Drive**.

4.9   **Help**

The **Help** menu item offers commands to 3 dropdown menus:

Help
Go to Golfsoft Software Website
Online Manual
About...
To go to the Golfsoft Software website, click **Help|Go to Golfsoft Software Website** from the menu bar.

To go online and view the Friday Stableford User's Manual, click **Help|Online Manual** from the menu bar.

To learn more about Friday Stableford application, click **Help|About…** from the menu bar.

5.   COMMAND BUTTONS

You choose a *command button* to initiate an action, such as carrying out or cancelling a command. Common command buttons are **OK** and **Cancel**. They are often located along the bottom or on the right side of the dialog.

A command button, followed by an ellipsis (…) or a double greater-than sign (>>) opens another dialog box.

Unavailable command buttons are dimmed. The currently selected button has a darker border than other buttons. You can choose the currently selected button, simply by pressing the **Enter** key.

To choose a command button, click the command button. Or press the **Tab** key until the button you want is selected, and then press the **Enter** key.

After you start a new event or open an old event, the screen will display several command buttons:

Simply, click the appropriate command button.

5.1   Event

This command button opens the **Old Event** dialog, which allows users to edit changes to parameters that were set during create new event procedure (See Section 4.1.1).

5.2   Signup Sheet

This command button opens the **Signup Sheet** dialog, which allows users to set who can play in the competition.

Members Only – This check box determines if non-members can play in the competition.

Status – Select one or multiple options.

Gender – Select one of three options.

- Click the **OK** button, to accept changes.

5.3   Courses

This command button opens the **Courses** dialog, which allows users to modify the current course information, such as: yardage, par or handicap. This dialog also allows users to select the tees of the home course or select an away course and the tees.

Courses ⊠

Hole Number	1	2	3	4	5	6	7	8	9	Out	10	11	12	13	14	15	16	17	18	In	Tot

Ready ...
Home Course – Click this command button to select the tees of the home course.

Away Course – Click this command button to select an away course and the tees.

Modify Course – Click this command button to modify the details of the selected course, such as: yardage, par, and Handicap stroke holes.

5.3.1   Modify Course

This command button opens the **Modify Course** dialog, which allows users to modify the course information such as: yardage, par, and Handicap stroke holes.

When playing competitions, such as Stableford, the points are awarded based on par. Normally, golf courses rate the holes based on average scores of the hole. Therefore, it makes sense that the Handicap stroke hole should be based on par. This dialog allows these changes to be made. A temporary tee may also be used for the competition. Hence, the yardage or par for the hole can be modified. The new modifications will be displayed on the scorecards, screen displays and reports.

Modify Course ⊠
